

September 16, 2025: On Just Do It!

Donald Trump: rather than fighting against you, I am encouraging you to just let go. Just do it! Anything you want. Just show us who you really are! Look around - nobody can stand up to you. You have free reign to do as much of anything that you like or choose to do.

Go ahead, Donald. We will all be watching and recording as you satisfy you unhealthy lust for violence and conflict with everyone around you. Many will cheer you on in your maniacal state. You will be loved again.

Please, lead us to destruction. Show us the way. We want to see how far the real Donald Trump will fall.

Seriously, your team obviously sits down the street waiting to drive a growling truck past my home after every single post that I make then follow it with more and more after I go to the other room.

So do more, do it all. Go ahead. Everything that you want and desire. Just let go old man! It will finally bring you the peace that you are searching for - us? Nah, don't worry about us. We all live and die to bring your lust for violence to its peak!

LIVE DONALD! LIVE YOUR LIFE LIKE NOBODY IN HISTORY!

SHOW US TRUE UNINHIBITED EVIL!
